The Suppression of Quackery.

Charlatanism in California has been fully aroused by the proposal to protect the public from its murderous rapacity, and its practitioners are making desperate endeavors to cloud the issue before the Legislature. In these attempts we regret to be compelled to say that they are unwittingly seconded by the fatuity of certain narrow-minded members of the regular profession, who seem to think the present a favorable opportunity for erecting a barrier against all "pathies" but their own. It should not be necessary to point out that the only possible result of persistence in this direction can be to defeat the legislation which is so urgently demanded. It is, however, evidently necessary to emphasize the fact, apparently quite unperceived by many medical men, that it is the public and not the medical profession, protection for which is sought. We have never advocated, and certainly do not now propose to advocate, any law for the restriction of legitimate research or experiment, for the establishment of a State medical hierarchy, or for the indorsement of any medical school whatever. Nor can the Legislature touch any such matters without altogether exceeding its functions, enacting the most pernicious kind of class legislation, and making itself ridiculous. Let us have a clear understanding of what the State can and ought to do, and then we shall be in a position to appreciate duly the arguments of the quacks, and to avoid with ease the untenable notions being advanced by hide-bound doctors who seek, not the public good, but only the monopoly of practice. We may begin with the assertion that the State is not competent to determine what constitutes good practice in medicine, but that it must maintain an attitude of rigid impartiality as between different schools. All that it is competent to insist upon is that no man shall practice medicine who has not been educated in the theory and practice of the arts and sciences necessary to familiarity with the structure and functions, normal and diseased, of the human organism, and with the nature and powers of the drugs employed for remedial purposes. No matter what school of medicine a man may select, it is equally incumbent upon him to possess this kind of knowledge, and no matter what he calls himself, whether allopathist, homeopathist, hydropathist, eclectic, or what not, if he has not acquired this knowledge he is utterly unfit to practice medicine, and should be prohibited from so doing under severe penalties. This we assert to be an incontrovertible proposition, and a plain and succinct statute based upon this principle cannot fail of beneficial results.

A great deal of very thin stuff has been talked and printed on behalf of the quacks, and strenuous efforts have been made to manufacture sympathy for the large and especially dangerous class who have practiced without scientific knowledge so long that they have acquired a sort of secondary aptitude, almost on a par with the anatomical skill which might be acquired in the course of years by the porter of a medical college, through observation in the dissecting room. It has been urged for these persons that it would be unjust to deprive them of their means of livelihood after so many years, and it is pretended that they have established a kind of prescriptive right to practice. It is not necessary to enter upon an argument in regard to them, however, for their case is clear enough. Under such a law as we propose, those who did not possess diplomas would be afforded an opportunity to demonstrate their competence by passing an examination. If they passed the examination they would be given a certificate under which they could continue to practice. If they failed to pass the examination that fact would prove them to be incompetent, and as incompetent persons they would be forbidden to practice. We have no doubt that many men who have fattened for years on the credulity of the public would be ruled out by this wholesome and effective test. We shall not be at all surprised if it delivered the State from the incessant swarm of advertising charlatans who have hitherto reaped golden harvests from the general gullibility. That indeed is one of the ends for which legislation is sought, and it constitutes one of the strongest arguments for such legislation. But no scientifically educated practitioner would suffer from this regulation. If he possessed the requisite acquaintance with his profession he would naturally have a diploma, and it is not proposed to go behind these certificates of competency, save when they emanate from notoriously venal institution, or appear to have been obtained fraudulently.

It may be depended upon that the outcry which is now being raised against "interference," proceeds in nine cases out of ten from the quacks, and it is perhaps worth while to call public attention to the consummate impudence of their expostulations. These fellows have assumed a right which could by no possibility be theirs; the right of tampering with the lives of their fellow citizens ignorantly. They are for the most part vulgar impostors, without so much as a smattering of science, commonly incapable of either speaking or writing the English language, traveling on "their cheek," in short, and not a whit more entitled to respectful or considerate treatment than any other swindlers and cheats. It is such as these who are now clamorous for "unfettered research," who are perfectly horrified at the idea of demanding proof of qualifications, and who are most active in spreading the false notion that those who earnestly demand the protection of the public, are striving to build up a "State System of Medicine." No man of sense, no man who at all understands this question, has ever proposed anything of the kind. All that is demanded—and this cannot be required with too much insistance—is that ignorant fools and knaves shall be debarred from murdering the people under the specious pretense of practicing medicine. Let science and research be free as air. There is nothing in our proposition to lay one restriction, however light, upon either of them. All we require is that the science shall demonstate its existence, and that the research shall be something more defensible than prying into the pockets of the people.—*Record Union.*

A PAUPER'S son ought to make a good balloonist; he is an heir o'naught.

TWO THIEVES.—The Radical papers are still endeavoring to make as much political capital as possible out of the crime and escape of Tweed. He is held up as a typical Democrat, and his immunity from punishment, as they are pleased to consider it, is pointed to as one of the evidences of Democratic robbery and corruption. We have nothing to advance in behalf of Tweed, or any other "ring" robber, great or small; and we quite agree that the circumstances attending his disappearance are strongly suggestive of collusion and bribery. But Tweed, the single offset to Radical thieves and thieving, is pointed to with intense satisfaction by the party. But he cannot be taken as any fair sample of the men who oppose Radicalism in this country. And even if he were, in our view he is a far better man than many of the leaders of that organization. Tweed, in his honest days, was a member of Congress, elected on the Democratic ticket; but after the downfall of his integrity, he was only able to cheat his way into city office and into the State Senate, where he had no influence except such as his money gave him. On the other hand, the chief spirits of the Radical party are the tenants of its highest places of trust and honor, and the exposure of their moral delinquencies that have been made, time and again, seems only to endear them to their followers and friends. Tweed to-day is as honest a man as Babcock, and probably never stole as much as that facile tool of the District and whiskey "rings." But Tweed has never a word said in his favor, while the whole power of the Radical press and the Radical administration is exerted to protect Babcock from the consequences of his flagrant crimes. Surely, while these facts are so patent; while the head-thief of the Democracy, is a fugitive and an outlaw, and the head-thief of Radicalism is honored, protected and whitewashed, it ill becomes any of the Presidential following, to seek any partisan application or advantage out of Tweed's villainy and escape. They had better be very careful, before they assume to criticise and condemn a man in every way better than their President's friend, and perhaps the recipient of even less "crooked" money.—*Examiner.*

CASH SYSTEM.—Buying on credit is fatal to economy. You have always to pay dearer when you do not pay cash. The tradesman must have interest on his money, for a man will never in a busy community be willing, and is seldom able, if he were willing, to forget it. To the ordinary cash price of the article he adds the interest that may accrue during the time that credit is allowed. This is not all; there must be a premium exacted by the dealers for the risk he runs in trusting his goods to that class of more or less dangerous customers who never pay ready money. Even the most honestly disposed of these are often unsafe debtors, for they are generally such as are imprudent enough to anticipate their incomes, and to overrun them in expenditures. The credit system is a temptation to unnecessary purchases. There is a sort of a check in the sight and touch of the hard won money to the disposition to dispose of it lightly. On the other hand, there is something in the facility of credit, removing, as it does, the disagreeable necessity of payment to a vague future, very seductive to the buyer, who can gratify his love of possession with a momentary sense, at any rate, that its gratification costs him nothing. There is no such cheap and cautious purchaser as cash.

GOLD MINING IN AN OLD RIVER BED.—There is, says the Assessor of Nevada county, sixty miles of old river channel, averaging in width about one mile, the depth of deposit being from one hundred to five hundred feet, and with the exception of a few places, confined on either side by a high rim rock. On this channel are located the hydraulic mines of Nevada county, and where millions of dollars are now being expended in driving tunnels through the rim rock to reach the bottom of the channel, and through which, when completed, those immense deposits of gold-bearing sand and gravel are to be washed. As an example I will mention the tunnel at North Bloomfield, which will be completed in a few months. It is nine thousand feet in length, nine feet in height, and six feet wide. From three to four hundred men have been employed about two years; it will cost, when completed, one million dollars. And this is not the only enterprise of the kind; there are others that are being pushed ahead with all the force that can be employed, and many others that are being projected and in time will be prosecuted to completion.

POPULAR FALLACY CONCERNING OVERWORK.—The subject of overwork, then, is one of the greatest importance to study, and has to be discussed daily by all of us. My own opinion has already been expressed, that the evils attending it on the community at large are vastly overestimated; and, judging from my own experience the persons with unstrung nerves who apply to the doctor are, not the Prime Minister, the Bishops, Judges and hard-working professional men, but merchants and stockbrokers retired from business, Government clerks who work from 10 to 4, women whose domestic duties and bad servants are driving them to the grave, young ladies whose visits to the village school or Sunday performance on the organ are undermining their health, and so on. In short, in my experience I see more ailments arise from want of occupation than from overwork, and taking the various kinds of nervous and dyspeptic ailments which we are constantly treating, I find at least six due to idleness to one from overwork. *Dr. Wilks in London Lancet.*

REV. THOMAS K. BEECHER is a sensible man. On the subject of reading the Bible in the public schools, he says: Good morals—that is to say, good manners—can be taught, learned and practiced without religion. Religion cannot be taught in our public schools except by grieving a few tender consciences and provoking not a few nominal Christians. It is therefore wise and best for our public schools to work toward teaching and good health, good manners, good intelligence, according to standards accepted by all, and leave religion to the care of parents, priests, preachers and churches.

Public Opinion.

It is gratifying to the careful observer to note amid the tumultuous perplexities of the times, how much Public Opinion has been purified and elevated within the last four years. This public opinion on the political and moral aspects of society has found its fullest expression in the press of the country. It may be said without hesitation that our American press to-day is of a higher, purer, and more critical character than that of England, Germany or France. Political partisanship and recklessness are mostly confined to the men in politics—to those thousands who hold fast to the dignities and pay of office. Even strictly party newspapers have from time to time been found in the advance, giving and receiving censure with no spare words.

We have not far to go back to know what is the might and what the exercise of public opinion. It unearthed the great fraud of the Credit Mobilier and consigned its aiders and abettors to an ignominious destruction. It did not even spare the Vice-President of the United States, that "Christian Statesman," who fell lower than all. It saved this country from the annexation of San Domingo, though the lust for its possession was enforced by Presidential demands. It discharged Mr. Boutwell from his post of Secretary of the Treasury, and relieved that office from the most high-handed encroachments ever witnessed in this or any other Constitutional government. It sent his successor, the great Richardson, into retirement where he might reflect in elegant leisure on his right to expand and inflate at will, and where he might mature the mighty scheme of returning to specie payment by means of five cent nickels—or less! It covered Landaulet Williams with the indignation of an outraged people, and sent him too, to the scrap heap of his political fellows! It has placed at the head of the Treasury, and the Attorney General's offices, two able and patriotic men, whose garments never yet have smelt of the taint of corruption. It is believed that it has taught the Lieutenant General of the army a lesson which many a more modest man would lay deeply to heart, and which taught the world that the citizens of a half-dozen noble States of this Union were not so near the character of the "Banditti" as himself was of being a Brigand. It sent Inquiry searching into the mazes of that many officed Department of the Interior, and laid bare abuse that might have shamed the Courtiers of Queen Ann and the first restoration in England, and turned their cheeks to scarlet. It sent Secretary Delano and his co-adjutors into retirement covered by the cloak of infamy, which even the certificate of good conduct given by the President can not clear or remove. It brought that other monster of iniquity, the Freedman's Bureau, out into public gaze, and sent General Howard to a court to procure a clean bill of health. It is now driving its shaft into the armor of rings—Internal Revenue and the crooked whisky distilleries, and already has sent two intimate personal friends of the President to the penitentiary; and it further insists, in language that is not to be mistaken, that his most intimate companion and Secretary, shall be brought to trial. It made it to be seen that even the Military Court ordered on his case, could not by any means overawe the civil tribunal which is the only one that can legally take the case in hand.

Public Opinion, purified, elevated, freed from fear of party threats or party fetters, has done far more than this. It has brought men to the front whose virtue cannot be impeached and whose patriotism can not be doubted. The "Scholar has finally been introduced "into politics," and by this time, Mr. Delano has no doubt found out who a certain Prof. Marsh is?

THE GULF STREAM.—There is a river in the ocean. In the severest months it never fails; in the mightiest floods it never overflows. Its banks and its bottom are of cold water, while its current is warm. The Gulf of Mexico is its fountain, and its mouth is the Arctic seas. It is the Gulf Stream. There is in the world no other so majestic a flow of water. Its current is more rapid than the Mississippi or the Amazon, and its volume more than a thousand times greater than either of those rivers. Its waters, so far out as the Carolina coast, are an indigo blue. They are so distinctly marked that the line of junction with the common sea water may be traced with the eye. Often one half the vessel may be perceived floating in the gulf stream water, while the other half is in the common water of the sea, so sharp is the line, and the wants of affinity between these waters; and such, too, the reluctance, so to speak, on the part of those of the gulf stream to mingle with the common water of the sea. In addition to this there is another peculiar fact. The fishermen on the coast of Norway are supplied with wood from the tropics by the gulf stream. Think of Arctic fishermen burning upon their hearths the palms of Hayti, the mahogany of Honduras, and the precious woods of the Amazon and Orinoco.

KEELY MOTOR.—There was a movement in the Keely motor business yesterday. It was the day of the annual election of directors by the stockholders, of whom there are 115 on the rolls, having 20,000 shares, of a "face" value of $50 a share, distributed among them, and held about half and half in New York city and in Philadelphia. After electing eleven directors and hearing the reports of the present condition of the machine the party took carriages and drove out to Keely's workshop, where they inspected the new generator which was received yesterday afternoon from Morris & Co's. It weighs two tons, and is made of phosphor bronze, an Austrian gun metal, and will, according to Keely, be able to generate 38,000 pounds pressure to the square inch. The new receiver, a perfect sphere, thirty inches interior and forty-two inches exterior diameter, weighing 7,000 pounds, cast in steel at the Chester Works and taking four days to cool and thirteen days to be carbonized, will also be received from Roach's Works, at Chester, in about a week. Then in about three months the Keely motor will be ready to split ships in two and drive engines to New York and back on a pint of water.—*Philadelphia Times.*

SUBSIDIES.—The great and unprecedented majority in the House for Judge Holman's resolution against subsidies—223 to 33—shows how public sentiment has grown in the right direction under the faithful teachings of an independent press. It has become plain to the majority of those who study public affairs, and who hence make public opinion, that the public good is best served by letting business enterprises, as a general rule, stand on their own merits and grow by supplying the wants of individual customers, and not by the help of money forcibly taken from the people as taxes. It is to be hoped that the great majority of members who have thus placed themselves so fairly on record will be true to the position they have taken. It is charged that they only voted for the resolution as clap-trap; that many of them openly avow their intention to make numerous exceptions to the rule, when there should be exceedingly few, and that others only voted for it because at this stage of the session the eyes of their constituents are closely on them. It is to be regretted that there should be any exceptions to the rule which members have prescribed to themselves, as these will tend to open the floodgates of extravagance and corruption unless most carefully guarded. If one member, one interest or one section gets a legislative favor of this sort, others will urge that exceptions be made on their behalf; and so there is danger that the excellent rule (to which exceptions should in justice be made) may be broken down in practice. The terrible taxation which has for years ground down industry and helped to paralyze trade must be stopped, and granting subsidies is one of the most fruitful and well-nigh uncontrollable sources of taxation. As there can be no fixed rule to guide the granting of subsidies but the one adopted by the House in opposition to them, it should be as strictly adhered to as exact justice to all, under existing circumstances will allow.—*N. Y. Mercantile Journal.*

NEGRO RULE.—South Carolina is still enjoying the luxury of Radical negro rule, and its fruits must be very bitter to the better class of people of the Palmetto State. After having been mercilessly robbed and bankrupted by a set of thieving carpetbaggers and ignorant negroes, her cup of bitterness has been filled again to overflowing by the election by the Legislature to Circuit Judgeships of two of the most consummate villains in the State—Ex-Governor Moses and a most corrupt and incapable negro named Whipple. South Carolina is being prepared by the Radicals for stepping down and out from her present position in the Radical ranks. She has tested the merits of the dominant party to her heart's content, and governor Chamberlain, who, although not by any means a perfect man, is still an improvement on his predecessors since the war, pronounces the election of those two scoundrels a disaster equally great to the State and the Radical party. When South Carolina has thrown off her shackles, as she now undoubtedly will, remarks the Philadelphia *Chronicle*, the South will present an unbroken front against Radicalism, unless "bloody shirt" Morton can manage to make it appear that Mississippi's election was a fraud, and that that State must still be classed with the Radicals.—*Examiner.*

THE PULSE.—Every person should know how to ascertain the state of the pulse in health; then by comparing it with what it is when he is ailing, he may have some idea of the urgency of his case. Parents should know the healthy pulse of each child—as now and then a person is born with a peculiarly slow or fast pulse, and the very case in hand may be of that peculiarity. An infant's pulse is 140; a child of seven, about 80, and from twenty to sixty years it is 70 beats a minute, declining to 60 at fourscore. A healthful grown person beats seventy times in a minute; there may be good health at 60, but if the pulse always exceeds 70 there is disease; the machine is working itself out; there is a fever or inflammation somewhere, and the body is feeding on itself, as in consumption, when the pulse is quick—that is over seventy, gradually increasing with decreased chances of cure, until it reaches 110 or 120, when death comes before many days. When the pulse is over seventy for months and there is a slight cough, the lungs are affected. The pulse decreases when a recumbent position is assumed for any length of time, and is increased by exercise, stimulants, and the presence of food in the stomach.

THEY REPUDIATE.—A very large proportion of the Methodist Church (North) repudiate the utterance of Bishop Haven nominating Grant for a third term. The New York *Methodist* rebukes the hot-headed Haven in dignified and forcible language. It says: "We feel bound to say that Methodists are utterly opposed to mixing Church and politics—to turning ecclesiastical gatherings into caucuses. But if Cardinal McClosky had dedicated the Boston Cathedral the same week, and had uttered Bishop Haven's words, asking his priests to pray for the election of Gen. Sherman 'as a measure of safety,' we do not doubt that every Methodist newspaper and pulpit in the land would have flamed with indignation. For this reason we regret the introduction of the topic into the Boston meeting." This is well put. This is common sense. And, after all, we have abiding faith that the common sense of the American people of all shades of religious belief will rebuke all attempts at mixing Church and State, come from what quarter they may.—*Sonoma Democrat.*

TERRIFIC TORNADO IN LOUISIANA. A special from Nashville says a terrific tornado, 12 miles east of Hickman, Dec. 27th, swept down whole forests in its pathway. The force of the wind was so great that persons can now walk over the trunks of trees where before were dense woods. Twelve dwelling house and barns were blown down, the inmates barely escaping with their lives. At Maryfield two persons were crushed to death under the ruins of a house. A negro was killed outright at another place, and a man named Shultz and a lady, Miss Searles, were killed, and her sister was badly crushed. The hotel at Relort was blown down, and the guests barely escaped. Death and destruction left their trace along the entire track of the tornado, which made a noise heard for miles.

WOODLAND, CAL:

Friday, December 7th, 1875.

BIG MONEY.—It is said that some $20,000,000 were paid in San Francisco last year as dividends by the several companies doing business in that city.

MAMMOTH PAPER.—On New Years Day the Sacramento *Record-Union* contained eighteen pages full of statistical, historical and Centennial matter, splendidly written up and put together in the best possible manner. It was really a very valuable number.

THE GRANGERS AT THE CENTENNIAL.—The grangers are to hold a grand encampment near Philadelphia, at the Centennial. Sixty acres of land have been leased, and an immense building is to be erected, in which rooms and accommodations are to be provided at a cost of not more than $2 a head per day! Steep enough, the *Bee* thinks.

SONOMA DEMOCRAT.—This old friend and welcome weekly visitor has commenced its nineteenth year. It is a noble representative of a noble people, the banner county of the Democracy, and we trust the enterprise displayed by its publishers, and the ability manifested by its editorial corps in each issue, will continue to be appreciated and rewarded. The *Democrat* is doubtless the most valuable country paper in the State.

HOLIDAYS.—There are now five legal holidays in California—Jan. 1st, Feb. 22d, July 4th, Dec. 25th and Thanksgiving Day. The *Bee* suggests that as these holidays all occur near together and leave an interim of nearly five months without any, the Legislature would do well to legalize Sept. 9th—Admission Day—as a holiday. We thing so too, and believe it would meet the unanimous approval of the people of California.

LA CREME DE LA CREME.—We have received No. 25 of this monthly musical magazine, published by J. L. Peters, 843 Broadway, New York, at $4 a year. Each number contains five pieces of first-class instrumental music, those of the present issue being: L'Esperance, nocturne, by J. Ascher, retail price, 40c; Wedding Bells, petit morceau de salon, by G. D. Wilson, 40 cts; La Reine du Salon, polka brillante, by H. Lichner, 60 cts; Andante de Trio de William Tell, by E. Pendent, 30 cts; La Feu Follet, Scherzo Capriccioso, by G. Ruhe, 40 cts—a really excellent selection.

GRANT'S FARM.—President Grant's farm consists of 793 acres which he values at $300 per acre, being a total of $237,900. This is but one of the nice little items composing the Presidential fortune, supposed to have been saved from a salary which most of his predecessors found barely sufficient to carry them through their term with becoming dignity. How many such items compose the aggregate of the President's wealth we are not aware, or what the total of his reputed immense fortune sums up. Perhaps some of our contemporaries are better posted and will have the kindness to inform us?

DAILY EXAMINER.—This excellent paper, the organ of the Democratic party of California was established in June 1865, and commenced its twenty-second volume on Monday last. We are glad to know that the *Examiner* is now prosperous. Editorially it is the strongest and best paper on the coast. We think it the duty of Democrats in this State to support it with their patronage. Another thing we ought to have said, which is a very strong point in its favor and that is that it is an excellent family paper, never containing anything that parents would not be willing their children should read. The daily is $10 per year, the weekly only $4.

MONEY EASIER.—The *Commercial Herald* of last week, in its money article puts a better face upon matters financial, and says that "Accommodation on good security can be had at commercial banks for 1 @ 1½ per cent. per month, and the savings and loan institutions are again lending at 9 @ 12 per cent. per year." This being the case, we hope the stringency that has ruled here during the last three months will "let up" as soon as the dull time which always succeeds the holidays is over. With money "easy" at the metropolis, and the unusually fine prospect for good crops next summer in this valley, Woodland ought to make important strides in growth and improvement. We have full confidence that we shall soon have better times.

RAILROADING.—From our exchanges we learn that there is no railroading going on in California now save what the Central and Southern Pacific people are doing. They are pushing the 100 miles from Woodland to Tehama; the 22 miles from Galt to Ione, and are working 3,500 men and 1,000 horses on the great cuts and fills and tunnels of the Tahechepa pass. We hope to hear soon that the Marysville road from this point will be repaired. This will place our town on two through lines instead of, as now, upon a mere side-track. Still, we are thankful for small favors, for we should be in a bad fix had we no railroad communication. The more lines of railroad come to our town the more importance they will give it.

Our Sacramento Letter.

SACRAMENTO, Jan. 5th, 1876.

EDITOR DEMOCRAT.—The machinery of the Legislature is again in good running order, and business, as you will observe, is being accomplished far more rapidly than prior to the holidays.

Very many citizens of the State believe the Constitution should be so amended as to have the meeting of this august body commence on the first or second Monday of January, so as to avoid the loss of time occasioned by going back to their constituents. This may be so, but I observe the time is not altogether lost that is spent in consulting with those for whom representatives are legislating.

IMPORTANT WORK

Has been cut out for the remainder of the session, and some of the best digested acts are now being introduced that have been brought into either branch.

IRRIGATION

Schemes that will benefit the State at large are being formed. Mr. Haymond of Sacramento and John R. McConnell have each introduced important measures since the holidays. Mr. McConnell's bill is of a local nature, being a bill for Los Angeles county, but its provisions are pronounced to be sound and applicable to the whole State.

RETRENCHMENT.

This Administration and this Legislature have each determined on measures of retrenchment, and I think are determined to carry them out. They are cutting off useless offices and getting clear of sinecures for officers.

On yesterday the Senate passed, without a dissenting voice, an act dispensing with the State Armorer and giving his duties to the Adjutant General, which saves eighteen hundred dollars per annum to the State. In addition to evidence of their acts in dispensing with a Chaplain, stamps and newspapers, the Committee on Contingent Expenses have shown, by request of a resolution passed this morning, that the

EXPENSES

Of the 19th session of the Legislature for the month of December were $2,652; those of the 20th, $647.05, and those of the 21st session, for the same month, $426; showing that the expenses of this session for the month of December were $221 less than those of the 20th, and $2,226 less than for the same month of the 19th session. So your readers can see, from the figures, that our Contingent Expenses this Senate has made a good showing. I have not seen any comparison of the expenses of the Assembly with the last two sessions, but learn that they are much less than so far in former years.

MC'CONNELL'S RESOLUTIONS.

The member of the Assembly from Los Angeles has introduced a preamble and resolutions defining the relations between the Federal and State Governments, charging the General or Federal Government with being corrupt, and enumerating some sound principles as connected with the political economy of our government. He wants an *ad valorem* tariff, metalic coin for currency, is opposed to Chinese immigration—indeed his resolutions are sound, so far as the Democratic belief is concerned.

CONSTITUTIONAL AMENDMENTS.

The propositions for the amendment of our State Constitution are very numerous and some of them very much needed, and the conviction is day after day growing upon the members of both branches of the Legislature that a Convention would make a more unique instrument, and leave out less that will be needed after. These special amendments could be made by the Legislature first passing them and then submitting them to a vote of the people.

PILOT COMMISSIONERS.

The Governor sent in the names of Thos. W. Badger, Daniel McNeil and Wm. Galloway as his appointees for Pilot Commissioners. They appear to be quite popular appointees, and will be confirmed.

CONCURRENT RESOLUTION ON THE INTRODUCTION OF BILLS.

The Assembly passed a resolution that no bills shall be introduced after the 8th of March, unless by recommendation of the Governor. It seems strange to have one branch of the Government dictate to another branch what it shall do, and I am informed by good authority that the Governor had nothing to do with this action. This question is now before the Senate and is creating some little excitement in a cool way. Mr. Lewis moved that the whole matter be

LAID UPON THE TABLE,

Which was done by a vote of 18 to 16. So the matter was decided so that it cannot be lifted from off the table without a two-thirds vote. INDEX.

THE NEGROES FOR GRANT.—Late dispatches inform us that a meeting of the Negro Radicals was held at Washington on Friday, and that the general sentiment was that President Grant should be nominated for a third term. Of course! Why, wasn't it the negro vote that elected him last time? Without his darkey supporters Grant would never have seen a second term, much less a third. But now even that element is rapidly turning against him. Not a single Southern State is counted upon as sure for Grant, not even Louisiana or South Carolina, though these they reckon as "possible" States. Even the negroes are deserting the rotten hulk of Radicalism and its extemely impopular leader, as rats are said to leave a sinking ship; and without their support, when there is so great a preponderence of the white vote against him, where is his support to come from in sufficient strength to elect him if he secures a nomination, which is by no means certain? We fail to see.

PAMPHLET SUPPLEMENT.—Messrs. Addington & Greene have issued a holiday supplement to the *Sun* of a hundred pages, in the shape of a county directory. This pamphlet is very useful, as it sets forth every important interest of the county, with statistics of value to those desiring information concerning that rich portion of this great valley. It was very liberally patronized by advertisers.

DEATH.—James Anthony, one of the publishers of the late Sacramento *Union*, died of paralysis in San Francisco on the 5th instant, aged 51 years.

PURE Lard Oil, Chinese Nut Oil, Castor Oil At E. BYNUM & CO'S

Certificate of Copartnership.

KNOW ALL MEN BY THESE PRESENTS that we, THOMAS MANSFIELD and ADOLPHE THEODORE, both residents of the County of Solano, State of California do hereby certify and declare that we have organized and formed ourselves into a copartnership, and we covenant and agree each with the other to be copartners for the purpose of carrying on and conducting the business of General Merchandise in the Town of Winters, in the County of Yolo, State of California, under the firm name and style of MANSFIELD & THEODORE.

That the principal place of business of said copartnership is at the Town of Winters, in said Yolo County, State aforesaid.

That the names of all the persons interested as partners in such business are above stated and signed hereto, and that such partnership will continue and be in force until further notice by us.

In witness whereof we have hereunto set our hands and seals this first day of December, A.D. 1875.

Application for Disincorporation.

IN THE COUNTY COURT OF THE COUNTY of Yolo, State of California.

In the matter of the Application of "THE WOODLAND, CLEAR LAKE AND HUMBOLDT RAILROAD COMPANY" for Disincorporation.

To all to whom these presents shall come, greeting:

Whereas, on the 8th day of December, A.D., 1875, "The Woodland, Clear Lake, and Humboldt Railroad Company" presented to Hon. J. A. HUTTON, the Judge of this Court, its Petition praying for the dissolution of said Corporation; and whereas the said Judge, on the 10th day of December, A.D. 1875, duly made an order that said petition be filed by the Clerk, and that notice of the same be given according to law; which said order recited that said petition was in conformity with the provisions of Title VI. of Part 3 of the Code of Civil Procedure.

Now, therefore, notice is hereby given that the said petition is now on file in the office of the Clerk of this Court; and all persons having any objections to the granting of the prayer of said petition are hereby required to present them in writing, and file the same with the Clerk of this Court, on or before MONDAY, THE SEVENTEENTH DAY OF JANUARY, A.D. 1876, or the same will be forever barred.

Witness my hand and the seal of said Court, this 11th day of December, A.D. 1875.

Town and County Matters

GRAND JURY REPORT. — In the County of Yolo, State of California—January term.

To the Honorable the County Court of said County:

We, the Grand Jury of said county, impanelled at the January Term, 1876, respectfully report that we have investigated the charges against all persons who have been held to answer; that the charges against three of said persons are sustained and one ignored, as appears by our endorsement upon the depositions on file.

We further report that we have found five true bills for felonies and one for misdemeanor.

That we have visited the County Hospital and County Jail. We find the County Hospital in good condition.

We respectfully call the attention of the Board of Supervisors of Yolo county to the insecure condition of the County Jail, and recommend the following improvements: That the walls and floor of the present Jail be lined with iron.

We also find from the reports of former Grand Juries now on file, that the attention of the Supervisors has been frequently called to this matter without any action on their part whatever. We consider the insecurity of said Jail calls for their immediate attention.

That we have finished all business submitted to us, and know of no further matters demanding our attention.

All of which is respectfully submitted. M. B. GORDON, Foreman.

Obituary Resolutions.

At a meeting of the Faculty and students of Hesperian College, Woodland, Cal., held Jan. 3d, 1876, the following preamble and resolutions were adopted:

WHEREAS, A. Eugene Hiddleson, formerly a student of Hesperian College, has been called from our midst by death.

Resolved, That we bear willing testimony to his faithfulness as a student.

Resolved, That we remember his virtues, and deplore the loss of one so worthy of our confidence and affections.

Resolved, That we tender our heart felt sympathy to the bereaved family, who mourn the death of so noble a son and brother.

Resolved, That the editors of the Woodland papers be requested to publish these proceedings in their respective papers.

By order of the Faculty and Students of Hesperian College.

WHEREAS, It has pleased the Almighty to remove from among us our esteemed and loved fellow-member, A. E. Hiddleson; and whereas, he held a position of honor and trust among us, the members of Hesperian Literary Society; therefore, be it

Resolved, That we as a society deeply deplore the loss of an honored officer and member of our Society.

Resolved, That the deceased has been a diligent and faithful member of our Society.

Resolved, That we tender our heart felt sympathy to the bereaved parents and many friends of the deceased.

Resolved, That a copy of these resolutions be presented to the Woodland papers for publication, and that a copy be sent to the bereaved parents.

A. G. LEE, President,
A. J. HUDSON, Secretary.

B. B. ELECTION.—At the meeting of the Silver Star Base Ball Club on Tuesday evening last, the following officers were elected for the ensuing term of three months: M. B. Eaton, President; E. M. Beach, Sec.; W. H. Lawson, Treas.; W. B. Hazelton, Captain. This Club intend giving a dance on the 21st instant.

MONEY BROKER AND INSURANCE AGENCY.—We call attention to the new card of Geo. D. Fiske, one of the oldest and most successful business men in this community. He is manager of the Yolo County Branch of the Home Mutual Insurance Company, and does a large real estate and money business.

CROSS WALK.—Bentley & Simpson and others in the vicinity have laid down a good plank walk across Main street at the corner of Second. A few more of the same sort at other crossings would facilitate travel this muddy weather, and would soon pay back their cost in increased business.

EARLY CLOSING OF STORES.—By notice elsewhere, it will be seen that nearly all the dry goods stores have agreed to close their places of business at half past seven P. M. until further notice. An excellent idea. Freeman & Co. refused to sign the card.

VISALIA DAILY.—We have received from the publishers, Mattick & Butz, the first number of *The Daily Evening Times*, just started at Visalia. We hope the enterprising publishers will be sustained in their undertaking.

ENDOWMENT.—The matter of an endowment for Hesperian College is being seriously discussed and we trust will result in something definite before long. A liberal endownment is just what is needed.

INSTALLED.—Judge E. R. Bush is now occupying the bench in our County Court. The newly elected Justices of the Peace have also commenced to dispense justice.

NEW DENTIST.—Dr. W. C. Wilson publishes his dental card in another column. His office is at the Exchange Hotel. Give him a call.

HORRIBLE.—The condition of Main street is terrible for mud—worse than before for a long time. It should have had another coat of gravel.

FOR SALE.—J. H. Hall offers his residence on Fourth street for sale very cheap. Also several good building lots on easy terms.

WOOD.—Patrick Casey has for sale on his ranch near Rupley's corners, just west of town, 150 cords of good stove wood.

Resolutions of Respect to the Hon. Lewis Ramage—Judge Denson Installed.

Shortly after ten o'clock Monday morning, as we learn from the *Bee*, the members of the Sacramento Bar assembled in goodly numbers in the District Court Room. The meeting was called to order by S. Solon Holl, who stated the objects of the assembly.

On motion of District Attorney Jones, a committee consisting of P. Dunlap and A. P. Catlin were appointed to escort Judge Lewis Ramage to the Court Room, there to receive the testimonial prepared by the Committee previously named.

On the arrival of the Committee with Judge Ramage, Geo. Cadwalader rose, made a few feeling remarks and then presented, beautifully engrossed, signed by all the members of the Bar, and elegantly framed, the following

TESTIMONIAL,

Upon the occasion of the expiration of the term of office of Lewis Ramage, as District Judge of the Sixth Judicial District of the State of California.

The members of the Sacramento Bar assembled, have unanimously adopted and signed the following resolutions and directed that they be engrossed, framed and presented to the retiring Judge at the Court Room, on the morning of the 3 l of January, 1876:

Resolved, That we welcome the Hon. Lewis Ramage from the Bench to his old and highly respected position among his professional brethren at the Bar, cordially wishing him success commensurate with his abilities.

Resolved, That we heartily bear testimony to the diligence and learning which have marked his administration of the high judicial office held by him, and that we will ever preserve in kindly remembrance how pleasant and unclouded has been our intercourse with him, and here attest that he is entitled to the enduring fame of one proved to be an honest and incorruptible magistrate.

The above was signed by thirty-eight members of the Bar, with blanks left for the signatures of the remaining gentlemen. Judge Ramage delivered a few appropriate and feeling remarks upon the reading of the above testimonial.

D. W. WELTY,
A. P. CATLIN,
P. DUNLAP, } Committee.

THE JUDGE ELECT.

The Chairman, Mr. Holl, appointed, upon motion of Geo. Cadwalader, Lewis Ramage and A. P. Catlin as a Committee to escort Judge S. C. Denson to the bench. The former rose in his seat and declared that it would give him great pleasure to do so, while the latter cheerfully acquiesced.

The newly elected Judge was then led to his seat, and in reply to the remarks of Mr. Catlin made a very able address, although his voice choked with emotion as he expressed the sentiments of his heart.

The District Court was then opened and the concourse broke up.

A WELL SELECTED and fresh stock of family groceries, very cheap, at J. H. Eaton & Son's. *31

MAPLE SUGAR, PURE MAPLE SYRUP and choice Honey in the Comb, at J. H. Eaton & Son's. *31

AN ENTERPRISING HOUSE.—We call attention to the new full column advertisement of the San Francisco Auction Store, Messrs. Gosliner & Co., proprietors. This house makes up for dull times by taking extra pains to draw custom. And the best evidence that their plan is successful is the amount of goods disposed of each day, notwithstanding the so-called dull times. A first rate business has been built up by advertising and selling goods at low prices.

JUDGE RAMAGE.—It will be seen by his card in another column, that since his term expired as Judge of this district, he has resumed the practice of his profession at the bar. As the Judge has the entire confidence and respect of all our people, he will no doubt have considerable practice in the Courts of this county.

RAIN.—Up to date of our last issue the rainfall for the season amounted to 6 and 80-100 inches. Add to this the fall from the 1st to the 3d, 1.20, and on the 5th, .12, and we have a total rainfall to date of 8.12 inches. It is raining hard as we go to press Thursday evening.

NEW STORE.—Messrs. H. & C. Shawl will open their new store in College Block on Monday next, and we bespeak for them an inspection of their goods. See their new advertisement.

A DISCOUNT of 5 per cent. for cash on all bills of $5 or more, at J. H. Eaton & Son's. *31

Our Dixon Letter.

DIXON, Jan. 3d, 1876.

EDITOR DEMOCRAT: — The Holidays—the days when many a heart has been gladdened by receiving sundry presents—have passed away, and we are now beginning another volume in our life. May it be as happy as the one just past, and may it be a year of blessing to all.

CENTENNIAL.

Like all other places, Dixon also celebrated the beginning of the Centennial year, by ringing the bells and firing a salute at midnight; also, some of the members of the Dixon Brass Band were out serenading their friends.

CHRISTMAS TREE.

The Christmas tree at the Baptist Church was a grand success, about 225 persons being present; Hon. Dudley representing our old friend Santa Claus, and numberless were the presents on the tree.

PERSONAL.

Mr. Hopkins, of the Dixon *Tribune* is still confined to his room, but thinks that he will be able to go out in a few days. Judge Johnson, of Woodland, who lectured here on Illinois Celebrities, met with very poor success, though the lecture was good.

DIXON GRANGE.

This Grange has elected the following officers for the next term: J. M. Dudley, Master; J. S. Mayes, Treas.; Miss McBride, Secretary; Mrs. McMahon, Lecturer; J. C. Merryfield, Overseer. Mrs. Newell, Chaplain; B. R. Newell, Steward; J. Kline, Assistant Steward; James Porter, Gate-Keeper; Mrs. J. S. Mayes, Ceres; Miss A. Kline, Pomona; Mrs. J. R. Love, Flora; Miss Russell, Lady Assistant Steward; Miss H. Yount, Organist.

BALLS.

The party given by Messrs. Straub and Hunter was very well attended, and of course all who participated enjoyed themselves splendidly.

The Leap-Year Social, given by Messrs. Frahm Brothers, was one of the finest socials we have ever attended. After lunch the gold ring doughnut drawing took place, which caused much merriment. Miss Fleischer, a young lady of this place, was the happy party that got the gold ring.

WEATHER.

It rained hard all last night and today it is still pouring down lively. Where are the prophets now who were telling us last Fall about a dry Winter? The pro-pects for a good crop this year have certainly never been excelled, according to statements made by old and experienced farmers.

SANITARY.

The general health of the community is very good, as we hear of but very few cases of sickness at present. This place having a good location—there being no sloughs or bottom lands near to give out their stench and unhealthy odor during the Summer—is about as healthy a town as we know of; therefore we can unhesitatingly recommend it as such. Some of our citizens are talking strongly in favor of incorporating this town (whether they will succeed the future will determine,) for sanitary purposes. They think the town is getting too thickly settled, and that some system of sewerage should be brought into operation. But we think that the community is healthy enough.

CHRISTMAS PRESENTS,

In the shape of about ten pounds of human flesh, were awarded to Bill Johnson, our well known blacksmith and rancher, and to Elbert Range a neighboring farmer, by their respective wives. Bill says he is well pleased, although it is a girl.

Being afraid that our epistle is already too long, we shall now conclude until another time.

Respectfully yours, ROMAN.

A PERFECT CODE.—EDITOR DEMOCRAT:—In its Christmas Eve. issue, the S. F. *Examiner* contained an editorial article upon Christmas and its observance, in which the following sentence occured: "He introduced a perfect code of laws, and their simplicity is such that there is no apology for a failure to comprehend them, *no excuse for neglecting to live after their requirements.*" Now I am too modest to write to the *Examiner*, but perhaps you will inquire for me through the DEMOCRAT, why it is—if there is "no excuse for neglecting to live after the!r requirements"—that the fourth commandment is so (almost) universally disregarded? I hope the *Examiner* will answer. A SUBSCRIBER.

NEW PATENTS. — Through Dewey & Co., Patent Agents, S. F., we receive the following advance list of U. S. Patents, granted to Pacific Coast inventors, viz: J. Lee, S. F., spittoon mat; W. Paddon, S. F., mash attemperators; J. B. Baux, Oakland, Cal., aging liquors; F. I. Shafer, S. F., hanging or portable fountains; H. A. Moore, S. F., trademark, hair produce; J. G. Steele, S. F., poison and poisonous compositions for the destruction of squirrels.

LADIES' EMPORIUM. — Mrs. Murphy, the well known fashionable milliner, of Sacramento, wishes to call the attention of the ladies of Woodland and vicinity to her fine stock of millinery just received, consisting of all the new shades in velvets, silks, feathers and birds. Remember the old stand—165 J street, between 6th and 7th, Sacramento. 17*4

RAILROAD BREAK.—We learn that the rain-storm on Sunday night washed away about fifteen feet of the railroad track at Sweeny's Creek, between Vaca and the town of Winters, thereby detaining the Monday morning train till evening, when connection was made as usual.

HIGHEST PRICE paid for Poultry and Eggs by J. H. Eaton & Son. *31

MUSICAL REVIEW. — Sherman & Hyde's *Musical Review*, published in San Francisco, is the only publication of the kind issued on this coast. The December number contains the following pieces of music: My Heart is Thine, song and chorus; Lilly Bell, song and chorus, and the Albert Polka, instrumental. Besides music, it also contains a general musical review and a goodly quantity of literary matter. $1.50 a year; single copies, 15 cts.

MORTGAGE TAX OVERTHROWN.—The Supreme Court has rendered a decision that the Mortgage Tax Law is unconstitutional. This law has been one cause of so much money being locked up in the banks. They have been waiting for this result, and now that the law is overthrown hundreds of thousands of dollars will be released and put in circulation.

READY TO LOAN.—From the December number of that valuable paper, the San Francisco *Real Estate Circular* we learn that the banks are nearly all loaning money again—the Odd-Fellows' Bank at the low rate of 9 per cent. per annum. The *Circular* thinks 9 per cent. will soon be the highest rate obtainable.

HOUSEHOLD MAGAZINE.—We have received No. 1 of the 18th volume of "Wood's Illustrated Household Magazine," and find it an excellent one for so low a price—only one dollar a year. We find, too, that it improves with age. Address—Household Publishing Co., 41 Park Row, New York.

TRANSFER PICTURES.—The Decorations on carriages, buggies, sleighs, furniture, boxes; etc., and other painted surfaces, often show the most delicate artistic skill, and the question arises, how are such views and ornaments placed there without great expense? The cheapest articles are frequently covered with bits of landscape or floral decorations that could not be painted by hand without increasing the value of the articles. The secret is, these paintings are transferred to the articles adorned by a process called "Decalcomanie." When the method was first discovered high prices were charged for the transfer pictures, and also for teaching the art, so that few could afford to purchase. Recently, however, dealers have reduced the rates so that now these pictures may be obtained at comparatively low cost. J. L. Patton & Co., 162 William Street, New York, are large dealers in these goods. For the small sum of ten cents they will send complete instructions, with catalogue and ten specimen pictures, to any one who wishes to learn this beautiful art.

We Can't Talk

Without showing the condition of our teeth. Every laugh exposes them. In order not to be ashamed of them let us use that standard dentifrice, SOZODONT, which is sure to keep them white and spotless. No tartar can encrust them, no cankor affect the enamel, no species of decay infest the dental bone, if SOZODONT is regulary used. It is a botanical preparation, and its beneficial effects on the teeth and gums are marvelous, as it removes all discolorations, and renders the gums hard and rosy.

A Remedy that has made its Mark.

Success is the meed of excellence. The truth of this has never been more forcibly exemplified than by the triumphant career of Hostetter's Stomach Bitters. No sooner did the people discover the genuine merits of that supreme invigorant and corrective than they hastened to stamp it with the seal of popularity. The press and the medical profession speedily follow in the wake of the public, and emphatically endorsed it. Thus from the very outset the success of the Bitters as a remedy and preventive was an established fact, and a degree of popularity which it often takes proprietary medicines years to attain, was achieved almost at a stride by the then new preparation. Since that time every successive year has witnessed fresh accessions to the favors with which the Bitters were early regarded, and the area of its popularity is no longer confined to the United States, but includes the British Provinces in North America and the West Indies, South America, Mexico, portions of Europe and Australia. That it is not only a remedy for dyspepsia, constipation, biliousness, urinary and uterine complaints, nervousness and debility, but also a preventive of those maladies to which air and water, impregnated with miasma, give birth, has been nowhere so strongly evidenced as in those regions where climatic conditions are unfavorable to health exist, and where the Bitters have been long and constantly tested. To call this superb cordial a remedy that has made its mark, cannot we think be regarded as boasting, since there is probably no proprietary remedy more widely known, universally respected and emphatically endorsed than these Bitters.

THE NATIONAL GOLD MEDAL was awarded to Bradley & Rulofson for the best Photographs in the United States, and the Vienna Medal for the best in the world. 429 Montgomery Street, San Francisco.

BORN.

Near Woodland, January 4th, to the wife of Jas. A. Douglas, a Daughter.

DIED.

In Woodland, January 1st, of croup, very suddenly, Georgie Kierskl, aged 3 years 1 month and 5 days.

Near Knights Landing, January 5th, Mrs. Hatcher, wife of George Hatcher, aged about 35 years.

In Sacramento, January 2d, Mrs. Nancy Scott, a native of Virginia, aged 79 years.

Near Cottonwood, January 4th, Wm. B. Wamack, a native of Missouri, aged 27 years.

DOLLAR STORE,

de17-3m 189 J ST., SACRAMENTO.

SMALLPOX. — We learn that Mr. Dutton of Cacheville was taken sick the other day, and being a single man Dr. Markell took him to his house to care for him, when it was soon developed into a case of smallpox. He was doubtless infected by a letter received recently from his sister in Indiana informing him of the death of her child from smallpox. There have been no other cases in the county in over a year.

SANTA CLARA ARGUS.—This good Democratic paper, published at San José, has commenced its eleventh volume, and on that occasion changed its form from octavo to quarto, which suits its patrons best. The *Argus* is a good family newspaper and politically very sound. May it continue to prosper.

STIRRING UP HATRED.—The Radical papers, or some of them at least, are harping on the same old tune of "rebel," "secession," etc. Their cry now is, that if the Democrats succeed in electing the next President, as they are pretty sure to do, it will be a rebel victory. But the days when such stuff can affect voters are fortunately over.

NEW SIGN.—F. M. Hall has just put up in front of his tinshop a very large coffeepot, with his business painted thereon in clear letters—a very good sign. The said coffeepot would hold about two barrels.

DOUBLE SHEET.—The Solano *Daily Times* publishers issued a double number on New Year's Day, containing forty columns of matter.

HUGHLITT'S IVORY WHEAT!

80 TO 100 BUSHELS TO THE ACRE.

SOMETHING NEW.

Agents Make $5 to $10 a Day Selling this Wheat

Make Money and Benefit your Neighbors.

Agents Wanted Everywhere to sell Ivory Wheat.

Allow us to call your attention to this new kind of SPRING WHEAT that will yield from EIGHTY to ONE HUNDRED bushels to the Acre. This Wheat was imported from Africa, and has been grown in the United States with unparalleled success for two years.

The grain of this wheat is small, plump and heavy, of a whitish color, and weighs SEVENTY pounds to the measured bushel. Its growth is quite different from all other grades of wheat, one pint being sufficient to plant an acre. 100 grains of the seed is sufficient for a farmer to plant in order to obtain an abundance of seed for 20 to 40 acres the following year.

ITS GREAT VALUE CONSISTS

1. In its abundant yield.
2. In its flour qualities.
3. In the quality of bread made from its flour.
4. In its great yield of flour.
5. In the facility with which it is harvested.
6. In its making a good yield on any kind of land.
7. In its being of a very heavy nature, and not liable to rust.
8. In its being easily threshed on our common threshers.
9. In its retention of these properties through successive years of cultivation, and not "running out," as many new kinds do in America.

To any one desiring to act as AGENT we will send a sample package of 100 grains for $1, or 500 grains for $4, with circulars giving full directions as to time and manner of planting, cultivating, etc., (and terms to AGENTS) prepaid by mail.

Send money by Postoffice Order or Registered Letter. Address

CANCER CURED!

I can cure Cancers, Wens and Old Sores. I will be found on Fifth Street, opposite the Grangers' Warehouse.

MRS. UNITY A. GIBSON.
WOODLAND, CAL., Dec. 5th, 1875. de10-1m

The Yolo Democrat.

Friday, January 7th, 1876.

Invocation to the New Year.

BY ALFRED TENNYSON.

Ring out, wild bells, to the wild sky,
The flying cloud, the frosty light;
The year is dying in the night;
Ring out wild bells, and let him die.

Ring out the old, ring in the new,
Ring, happy bells across the snow:
The year is going, let him go;
Ring out the false, ring in the true.

Ring out the grief that saps the mind,
For those that here we see no more;
Ring out the feud of rich and poor,
Ring in redress to all mankind.

Ring out a slowly dying cause
And ancient forms of party strife;
Ring in the nobler modes of life,
With sweeter manners, purer laws.

Ring out the want, the care, the sin,
The faithless coldness of the times;
Ring out, ring out my mournful rhymes,
But ring the fuller minstrel in.

Ring out false pride in place and blood,
The civic slander and the spite:
Ring in the love of truth and right,
Ring in the common love of good.

Ring out old shapes of foul disease,
Ring out the narrowing lust of gold;
Ring out the thousand wars of old,
Ring in the thousand years of peace.

Ring in the valiant man and free,
The largest heart, the kindlier hand;
Ring out the darkness of the land,
Ring in the Christ that is to be.

General Items.

L. S. Rose, of Marysville, has lost his stallion, "The Moor," value $20,000.

The narrow-gauge railroad is completed to within four miles of Grass Valley.

D. P. Thompson, of Oregon, has been appointed Governor of Idaho Territory.

California pays to General Sutter every month the sum of $200 in gold coin.

Nightmare is caused by remaining so long in one position that the blood ceases to circulate.

The gas that flows from an artesian well in San Fernando District, affords sufficient fuel to run a furnace.

Brazil has applied for 34,000 square feet of space at the Centennial exhibition. Canada is making great preparations for it.

The San Francisco Ministerial Union has voted to invite Moody and Sankey to visit this coast at their earliest convenience.

All garments worn next to the skin during the day should be removed at night and spread out for thorough airing and drying.

The Southern Pacific Railroad trains now run thirty miles beyond San Bernardino, but work has been stopped at that point.

Senator Jones, of Nevada is knocking round the United States in a $11,000 railroad car, specially prepared for himself and family.

A rich lead of cannabar has been discovered a short distance south of the great Almaden quicksilver mines in Santa Clara county.

A valuable horse owned by Daniel Sanson, at Hayward, fell into a sixty-foot well last week, and was hauled out with only a few slight bruises.

The twenty-five persons who pleaded guilty to being spectators of the recent prize fight at Nortonville, Contra Costa county, were fined $10 each.

The National Rifle Association of Great Britain has accepted the challenge of the New York Association to take part in a match during the Centennial.

Dr. Holland thinks the cure for gossip is culture. He says good-natured people talk about their neighbors because they have nothing else to talk about.

There is a bull-frog farm in South-eastern Wisconsin, thirty acres of swamp-land fenced in, and the proprietor sends thousands of featherless birds to New York.

Thirty-seven thousand pounds of alfalfa seed was recently delivered to parties in Kern county. Twenty pounds is the quantity required to sow an acre of land.

There is a Peat Fuel Company in San Jose, capital stock $1,500,000 on paper! They intend to work the peat beds lying between the Sacramento and San Joaquin rivers.

A rattlesnake with thirty-two rattles and measuring seven inches round in the biggest part, is what San Buenaventura has to offer as a December production in that balmy clime.

The Rev. Mr. Noble, a Free Methodist preacher of Portage, Wisconsin, has purchased a steamboat, in which he travels up and down the Wisconsin river holding revival meetings at every landing.

Governor Irwin has appointed James B. Campbell, of Mariposa county, as Judge of the Thirteenth Judicial District, vice Alexander Deering, deceased. Campbell is now District Attorney of Mariposa county.

No fewer than thirty-four French newspapers have been suppressed since the state of siege was imposed. A large number of others have suspended. One hundred and sixty-three newspapers have been subjected to fines.

The *Southern Californian*, Bakersfield, says Lieut. Wheeler has ascertained that Fisherman's Peak, overlooking Inyo, is three hundred feet higher than Mt. Whitney, which has an altitude of fourteen thousand feet.

The Woman's Centennial Executive Committee have raised $30,000 for the erection of a pavilion in which to exhibit every kind of woman's work. To this collection, women of all nations are expected to contribute.

Small as is the Radical representation in the Alabama Legislature, it is being reduced steadily. One of the two representatives from Macon county has been sentenced to the chain-gang, and the other has fled to avoid arrest.

In Sonora, Mexico, a revolution is in progress, and the Yaqui Indians are in revolt. Gov. Pesquiera has levied a special tax to carry on war. The revolutionary party, it is reported, are about to invade Sinaloa. Business is prostrated.

It is said that D. B. Huff, Esq., has resigned the lumber business agency in Dixon, with a view of removal to some of the newly proposed towns along the line of the Woodland and Colusa road.

Common coal oil is an excellent mosquito-bar. Drop a little on a piece of cotton, squeeze as dry as possible, and rub over the exposed portions of the body. The smell of the oil disappears in about five minutes, and no mosquito will alight upon the anointed places.

London, with a population of 3,266,985, has less than half the debt of Philadelphia, with a population surely not exceeding 750,000, or less than one fourth as much. Four American cities, with a population about equal to that of London, have an aggregate of debts twelve times greater.

It is estimated that but about $700,000,000 of the national debt is held in the United States, the balance, or two-thirds, being held in Europe. And yet from the fact of the bonds being exempted from home taxation, they furnish a much more profitable investment for home than foreign capital.

There was an earthquake in Porto Rico on the night of December 8th and 9th, which created great alarm. The capital, San Juan, was not damaged, but the town of Arecibo was almost totally destroyed. Only two churches and six houses remain, and they are so badly damaged that they may fall at any moment.

The largest organ in the world is in Albert Hall, London, and was built by Henry Willis, in 1870. It contains 130 stops, four manuals, has nearly 10,000 pipes, all of which are metal. The wind is supplied by steam power. Thirteen couplers connect or disconnect the various subdivisions of the organ at the will of the performer.

The *Epoda* of Madrid says when the Carlist insurrection is suppressed an efficient army will be maintained in Cuba as a measure of precaution, and that heavy guns will be placed on the coast. At the same time Spain will propose to the United States a new and mutually advantageous treaty of commerce. Subscriptions have already been opened to defray the cost of manufacturing heavy guns for the defence of Cuba.

The House Committee on Commerce and Navigation reported favorably on the resolution for a Committee of Five, to examine into the seaworthiness of ships coming in and going out of California ports. This Committee will act independent of the Senate Committee appointed for the same purpose.

Just Received.

SOME OF THE FINEST CABINET ORGANS

EVER BROUGHT TO THIS COAST.

NO MORE REEDY, HARSH TONES.

THE WARREN & CLOUGH

COMBINATION ORGAN.

New and Wonderful Invention.

The newly invented SCRIBNER PATENT "QUALIFYING TUBES," (Secured by letters patent in the United States, England and Canada.) An invention having a MOST IMPORTANT BEARING on the future reputation of Reed Instruments. By means of which the quantity or VOLUME of tone is VERY LARGELY INCREASED, and the QUALITY of tone rendered equal to that of the best Pipe Organs of the same capacity—thus furnishing all the desirable characteristics of the large Church Pipe Organ, in a case the size of an ordinary Cabinet or Parlor Organ, and at the moderate price of Reed Organs. By means of this invention, an Organ containing two sets of reeds becomes equal in volume and power, and VASTLY SUPERIOR IN QUALITY AND BRILLIANCY OF TONE to an ordinary Reed Organ of six or eight sets of reeds. One of the crowning features of this invention is the peculiar facility with which it adapts the tone of the instrument to ACCOMPANY THE VOICE IN SINGING, the effect upon both singer and listener being charming beyond description. This ingenious invention consists in the construction and application of tubes of wood or metal, placed so as to operate in connection with the reeds, each tube having an opening on the upper side at the rear end, through which the air, subsequently passing through the reed, enters, and through which the sound produced by the vibration of the reed escapes. The tubes inclosing the reeds of the treble are provided with adjustable valves or slides, over the mouth opening, by means of which the tubes may be tuned in unison with reeds, to produce a flute-like tone, such as found heretofore only in pipe Organs.

Can be seen and heard on the corner of Sixth and I streets.

JOHN F. COOPER.

It Pays! It Pays!!

WHAT PAYS?

IT PAYS every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional man, to keep informed on all the improvements and discoveries of the age.

IT PAYS the head of every family to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation, and promotes thought and encourages discussion among the members.

The Scientific American,

which has been published weekly for the last thirty years, does this, to an extent beyond that of any other publication; in fact it is the only weekly paper published in the United States, devoted to Manufactures, Mechanics, Inventions and New Discoveries in the Arts and Sciences.

Every number is profusely illustrated, and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical and Scientific Progress of the World; Descriptions, with Beautiful Engravings, of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Receipes, Suggestions and Advice, by Practical Writers, for Workmen and Employers, in all the various arts, forming a complete repertory of New Inventions and Discoveries; containing a weekly record not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions in every branch of Engineering, Mechanics and Science abroad.

THE SCIENTIFIC AMERICAN

has been the foremost of all industrial publications for the past Thirty Years. It is the *oldest, largest, cheapest,* and the best *weekly* illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the World.

The practical receipts are well worth ten times the subscription price. And for the shop and house will save many times the cost of subscription.

Merchants, Farmers, Mechanics, Engineers, Inventors, Manufacturers, Chemists, Lovers of Science, and People of all professions, will find the SCIENTIFIC AMERICAN useful to them. It should have a place in every Family, Library, Study, Office and Counting Room; in every Reading Room, College and School. A new volume commences January 1st, 1876.

A year's numbers contain 832 pages and SEVERAL HUNDRED ENGRAVINGS. Thousands of volumes are preserved for binding and reference. Terms, $3.20 a year by mail, including postage. Discount to Clubs. Special circulars giving Club rates sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

PATENTS. In connection with the *Scientific American*, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms, Models of New Inventions and Sketches examined and advice free. A special notice is made in the SCIENTIFIC AMERICAN of all inventions Patented through the Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice. Send for Pamphlet, containing full directions for obtaining Patents. A bound volume containing the PATENT LAWS, CENSUS OF THE U. S., and 142 ENGRAVINGS of mechanical movements. *Price, Twenty-Five Cents.*

Address for the Paper, or concerning Patents, MUNN & CO., 37 Park Row, New York. Branch Office, Cor. F & 7th Sts., Washington, D. C. de10

THE WEEKLY SUN.

1776. NEW YORK. 1876.

Eighteen hundred and seventy-six is the Centennial year. It is also the year in which an Opposition House of Representatives, the first since the war, will be in power at Washington; and the year of the twenty-third election of a President of the United States. All of these events are sure to be of great interest and importance, especially the two latter; and all of them and everything connected with them will be fully and freshly reported and expounded in THE SUN.

The Opposition House of Representatives, taking up the line of inquiry opened years ago by the SUN, will sternly and diligently investigate the corruptions and misdeeds of Grant's administration; and will, it is to be hoped, lay the foundation for a new and better period in our national history. Of all this THE SUN will contain complete and accurate accounts, furnishing its readers with early and trustworthy information upon these absorbing topics.

The twenty-third Presidential election, with the preparations for it, will be memorable as deciding upon Grant's aspirations for a third term of power and plunder, and still more as deciding who shall be the candidate of the party of Reform, and as electing that candidate. Concerning all these subjects, those who read THE SUN will have the constant means of being thoroughly well informed.

THE WEEKLY SUN, which has attained a circulation of over eighty thousand copies, already has its readers in every State and Territory, and we trust that the year 1876 will see their numbers doubled. It will continue to be a thorough newspaper. All the general news of the day will be found in it, condensed when unimportant, at full length when of moment; and always, we trust, treated in a clear, interesting and instructive manner.

It is our aim to make the WEEKLY SUN the best family newspaper in the world, and we shall continue to give in its columns a large amount of miscellaneous reading, such as stories, tales, poems, scientific intelligence and agricultural information, for which we are not able to make room in our daily edition. The agricultural department, especially, is one of its prominent features. The fashions are also regularly reported in its columns; and so are the markets of every kind.

The WEEKLY SUN, eight pages with fifty-six broad columns is only $1.20 a year, postage prepaid. As this price barely repays the cost of the paper, no discount can be made from the rate to clubs, agents, Postmasters, or anyone.

The DAILY SUN, a large four page newspaper of twenty-eight columns, gives all the news for two cents a copy. Subscription, postage prepaid, 55c a month or $6.50 a year. SUNDAY edition extra, $1.10 per year. We have no traveling agents. Address,

de3-6w THE SUN, New York City.

CHICAGO AND NORTH-WESTERN RAILWAY.

THIS IS THE BEST ROUTE EAST.

Its Track is of STEEL RAILS, and on it has been made the FASTEST time that has ever been MADE in this country. By this route passengers for points east of Chicago have choice of the following lines from Chicago:

BY THE PITTSBURG, FORT WAYNE AND CHICAGO AND PENNSYLVANIA RAILWAYS.

2 THROUGH TRAINS DAILY, with Pullman Palace Cars through to Philadelphia and New York on each train.

1 THROUGH TRAIN, with Pullman Palace Cars to Baltimore and Washington.

BY THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY AND CONNECTIONS (NEW YORK CENTRAL AND ERIE RAILROADS):

2 THROUGH TRAINS DAILY, with Palace Drawing Room and Silver Palace Sleeping Cars through to New York.

BY THE MICHIGAN CENTRAL, GRAND TRUNK, GREAT WESTERN AND ERIE AND NEW YORK CENTRAL RAILWAYS:

2 THROUGH TRAINS, Pullman Palace Drawing Room and Sleeping Cars through to New York, to Niagara Falls, Buffalo, Rochester, or New York city.

BY BALTIMORE AND OHIO RAILROAD:

2 THROUGH TRAINS DAILY with Pullman Palace Cars for Newark, Zanesville, Wheeling, Washington and Baltimore without change.

This is the SHORTEST, BEST and only line running Pullman celebrated PALACE SLEEPING CARS AND COACHES, connecting with Union Pacific Railroad at OMAHA and from the WEST, via Grand Junction, Marshall, Cedar Rapids, Clinton, Sterling and Dixon, for CHICAGO AND THE EAST.

This popular route is unsurpassed for Speed, Comfort and Safety. The smooth, well-ballasted and perfect track of steel rails, the celebrated Pullman Palace Sleeping Cars, the perfect Telegraph System of moving trains, the regularity with which they run, the admirable arrangement for running through cars to Chicago from all points West, secure to passengers all the comforts in modern Railway traveling. No changes of Cars and no tedious delays at Ferries.

Passengers will find Tickets via this Favorite Route at the General Ticket Office of the Central Pacific Railroad, Sacramento.

Tickets for sale in all the Ticket Offices of the Central Pacific Railroad.

TOOK THE MEDAL

—AT THE—

STATE FAIR

WITH FOUR COMPETITORS.

SACRAMENTO, (Cal.), Sept. 14, '75.

This is to certify that the MATHUSHEK PIANOS we are using, and purchased of MR. COOPER, give good satisfaction, standing in tune and wearing remarkably well, and we are well pleased with them. We think they are good and honestly made, and deserve especial notice.

HERMON PERRY,
Prin. Sacramento Seminary.

ST. JOSEPH CONVENT, SISTERS OF MERCY, Sacramento.

We are using quite a number of the MATHUSHEK PIANOS, and consider them very superior instruments. They give very great satisfaction, and we wish that all our pianos were of the same make. We have tried the principal makers, and consider the Mathushek Piano superior for fullness of tone and durability. SISTERS OF MERCY.

[A CARD.]

This is to certify that I have sold large numbers of the MATHUSHEK PIANOS for over four years, and not one has ever failed. They keep in tune and wear better than all others, and exceed the expectations of purchasers, which has led to increase the demand for them. For information, call, and do not be led by interested parties to purchase certain Pianos you would soon after desire to change for Mathushek. They took the ONLY MEDAL at the State Fair, with four competitors. I have no idea of giving up the agency, as reported by interested parties. Hundreds have been sold, and I have numerous testimonials concerning their superiority, which I will show you with pleasure; many have been published heretofore. Call and see them.

JOHN F. COOPER.

Cabinet Organs of the best makers, and also some new cheap Pianos, from $300 up; a lot of second-hand Pianos. Pianos sold on installments, if desired. Pianos to Rent. Write or call on JOHN F. COOPER, corner Sixth and I streets Sacramento. oc24
